

Fischer Named a Product and Innovation Leader in KuppingerCole's IDaaS Leadership Compass

Deployment Readiness, Integration Strategy and No-Programming are Key to Cloud IAM/IGA Success

July 24, 2017. Naples, FL – Fischer International Identity, the evolution of identity management and governance solutions, have been recognized as a Product and Innovation Leader in KuppingerCole's Leadership Compass for Identity as a Service: Cloud-Based Provisioning, Access Governance, and Federation (IDaaS B2E).

KuppingerCole recognized Fischer substantially for its "deployment readiness," which is the founding principal on which Fischer's solution was designed. "Due to their SaaS-ready design approach, the clear focus is on providing a large set of features, well-defined standard configurations, and avoiding programming," says Martin Kuppinger, Founder and Principal Analyst from KuppingerCole.

The report went on to acknowledge other product strengths that speak to Fischer's commitment to make IAM/IAG consumable and flexible for all-sized enterprises. "Fischer has a good strategy for integration, supporting both an ETL-based approach and a comprehensive set of REST APIs," adds Kuppinger, "Furthermore, connectors are fairly simple to create. Thus, even complex scenarios are in scope of this solution."

"KuppingerCole truly understands our vision and why we are unlike any other identity provider, said Andrew Sroka, Fischer's President and CEO. "Our 100% focus on making identity management and governance simple and flexible has changed the way businesses operate. We've proven over and over that securing and enforcing access in complex environments can be a quick win."

ABOUT KUPPINGER COLE

KuppingerCole, founded in 2004, is an international and independent Analyst organization headquartered in Europe. The company specializes in offering neutral advice, expertise, thought leadership and practical relevance in Information Security, Identity & Access Management (IAM), Governance (IAG), Risk Management & Compliance (GRC) as well as all areas concerning the Digital Transformation. KuppingerCole supports companies, corporate users, integrators and software manufacturers in meeting both tactical and strategic challenges. Maintaining a balance between immediate implementation and long-term viability is at the heart of KuppingerCole's philosophy.

ABOUT FISCHER INTERNATIONAL IDENTITY

The Fischer International Identity mission is simple: "Your Success." From how we've engineered our identity & access management software, and how our implementation methodology eliminates unnecessary overhead and cost, to our investment in our customers by providing low cost and in many cases no-cost feature enhancements, our solutions make IAM work for your organization - both technically and financially. We never stop innovating. We never stop evolving our product and our methodology. We are never satisfied because we know we can continue to make IAM easier to consume and deploy. Fischer Identity is the last IAM product you will ever need.
